

AGENDA

Goal: Investigate improving the collection of fertilizer sales data, specifically for the Chesapeake Bay model.

Moderator: Bill Angstadt, Delaware Maryland Agribusiness Association

Current Situation Analysis:

Current Calculation of fertilizer sales in the Bay Model

Robert W. Burgholzer
University of Maryland – CBP

Current AAPFCO approach to sales data collection

Dr. David Terry
University of Kentucky

Current regulatory tonnage accounting system

Candice Carter and Darlene Stading
Southern States Cooperatives

Possible Innovation for Improving Accuracy:

Protocols for farming reporting

Mark R Miller
USDA NASS

Viewpoint of Fertilizer Distributor

Rich Kirby
Kirby Agri, Landcaster, PA

GIS Protocols

Dr. Harold Reetz
Foundation for Agronomic Research

Potential Actions:

Consensus-building discussion
Group
