

# 2016 Executive Council Report

Due early September, 2016

Group: Gene Yagow, Adel Shirmohammadi, Kirk Havens, and Jason  
Hubbart

# Key upcoming (overarching) issues/priority issues

- Emphasize the need to adhere to Adaptive Management process – 2017 MPA is where it kicks in!
  - How does monitoring fit in?
  - Long term monitoring
- Food, Energy, Water Nexis – look at CB from process level (in plain terms)
  - STAC to leverage federal initiatives
  - Use CBP as a pilot for FEW Nexis
  - Scaled down to local government (county level)
  - Re-enforce inter-agency collaboration
  - Climate change and Nexis
  - Population growth and lack of land use planning
    - Re-assess actions to accommodate growth

# Key upcoming (overarching) issues/priority issues cont...

- Contaminants of emerging concern
  - Last year Microplastics/beads – STAC review and federal ban
- Focus on living resources
  - Need a balance between TMDL and CB Watershed Agreement
