

Participation in this workshop allows you eligibility for continuing education credits (see attachment for more details). Directions on how to receive this credit are below.

If you are seeking:

- **Nutrient Management Advisor Credits (for VA, MD, DE) or NRCS Conservation Credits (for VA, MD, NY):** Participants must fill out a form at the end of every workshop day in order to get credit. This should only take 2-3 minutes. Participants will then be sent an email confirmation of attendance at the end of the third workshop day (July 20th).
- **Certified Crop Advisor (CCA) Credits:** Participants have two options: (1) Download the [CCA app](#) before the workshop. We will provide a QR code for you to scan at the start and end of each workshop day. OR (2) If you cannot download the app, please visit [this webpage](#) for directions on how to submit your credits.
- For all other credits, please complete this [Google Form](#) at the beginning and end of each session you attend. We will also send this form in the chat at the beginning and end of each session.

If you have any questions, please contact Jackie Pickford (pickford.jacqueline@epa.gov).
